Chicago Live Stock Market.

Chicago, Ill., June 27.—[Special Telegram to THE Ref.]—The hog market was in an unsettled state today, prices showing much uncasiness. There were sales at about Saturday's prices and in other instances a reduction of from 5c to 10c was apparent. The average was about 5c lower than for that day, the closing being slightly firmer than the opening. From \$5.00 to \$5.35 was the range of values for common to choice grades. There was a sale or two of extra at \$5.40 and culis sold anywhere below \$4.75. The receipts, though larger than expected, were not too large for the demand, shippers and nackers both buying freely. Receipts, 35,000. Holders of sheep unloaded at about steady prices. The better qualities were firmly held and those of low degree were weak but there was not a quotable variation in any grade. From \$2.75 to \$3.25 for inferior stuff prices ranged up to from \$6.00 to \$6.25 for extra. There have been few recent sales at over \$5.90, the popular prices being \$3.75 to \$5.50. Lambs were weaker at from \$4.5) to \$7.00. Receipts, 9,000.

THE SPECULATIVE MARKETS

SHORTS BECAME ALARMED IN EARNEST

As a Result of the Combination of Circumstances There Was the Sharpest Advance Since the Bull Campaign in That Line Begard

CHICAGO, Ill., June 27.-It was a lively day in the pork pit. The shorts became slarmed nearnest, and the result was the sharpest advance since the bull campaign in that market began. Many looked upon the firmness of last week as temporary, and counted on a reaction instead of further advance. This morning the market was quoted slow. was looked upon as a turning point. But there was no turn. All products opened about where they closed on the bulge Saturday and began move higher. This was thought to be under the lead of corn. But corn advanced %c and

stopped, while products kept on higher, The export movement was away beyond the ordinary for the season. The buying by brokers for Cudahy and Armour interests was a feature. Then this country showed some response to the bull market as usual after several days of advancing market. Some stop orders were executed. The same persons who were on the wrong side bid for all products.

were on the wrong sile bid for all products. Foreign houses were also said to be getting back stuff sold at lower prices. A general stampede of curred before the close and there was a net gain of from 3°C to 37% for pork, 12% on top of a similar bulge Saturday. Ribs gained 2c from Saturday. In wheat trading was light. The feeling was a trifle firmer, but fluctuations were confined within narrow limits. The opening was from be to be higher than Saturday's closing figures and advanced be more, held quite firmly and the closing was about be higher than Saturday. A larger decrease in the visible supply than had been expected, together with rainy weather and an unconfirmed report that the Hatch bill was decired unconstitutional by the judiciary committee, tended to create a firm tone. If there is any line ac unuilated with a view of squeezing the fully shorts in corn, there was no indication of manipulation today. The market was narrow, winding up with a gain of be compared with Saturday.

Outs closed from be to be higher, after experiencing a moderate business.

Lake freights were steady at 2c for wheat, 13c for corn and 15c for outs to Buffalo.

Estimated receipts for tomorrow: Wheat, 22, cars; corn, 75 cars; oats, 360 cars; hogs, 22,000 head.

Traders' Talk. CHICAGO, Ill., June 27.-F. G. Logan & Co. to Duncan. Hollinger & Co.: The business doing on wheat has been light today and the bulk of it local. July opened at 78%c, sold as high as 78%c, closed at 78%@79c. September sells at about the discount. Some reports come from New York that the Hatch bill is considered unconstitutional, but this lacks confirmation from Washington, This bill, with the favorable reports of our growing crops, has restricted all speculative purchases. Early sales were steady but later prices were quoted higher. Foreign advices regarding crops in France. England and Russia are not favorable for large crops. There may not be much to advise buying on, beyond the low price and the extraordinary low rates of transportation. We cannot recommend selling it. Corn opened very active and strong, but the activity was very short lived. September opened at 48%c, sold to 48%c and closed at 48% to 48%c. July brought a prenium of ½c to 2c; it closed at 50%c. All the accounts we get of growing crops are in favor of better prices. Oats steady with narrow fluctuations, July closed 32%c. September 31%c. Hog products were strong. September pork closed at \$11.37; lard, \$7.00; ribs, \$7.27. With the prospects of a small corn crop we will have higher prices. Meantime we have a good advance, and reactions on realizing profits must be looked for. Chicago, Ill., June 27.—Kennett, Hopkins & Co. to S. A. McWhorter: Chondy skiessuggestive of wet harvest fields and an unexpected decrease in the visible supply held wheat firmly all day with a light trade. The news is a repetition of that of the past week, favorable crop news here and abroad. Heavy foreign markets, moderate exports, but increasing inquiries are reported. favorable crop newshere and abroad. Heavy foreign markets, moderate exports, but increasing loquiries are reported. The markets hold up surprisingly well under the circumstance, possibly due to a belief that prices are low enough even if another big crop is assured. The strength in corn has surprised the trade as rains could have done little harm and estimates are overrun. The trade is getting out of July but September. The latter month has been unusually strong. Oats were firm in sympathy. Provisions were strong and active, the high price of hogs having encouraged local buils to advance prices. Armour and Cudahy are said to be enlisted on the long side.

local buils to advance prices. Armour and Cudnby are said to be enlisted on the long side.

Chicago, Ill., June 27.—Counselman & Day to Cockrell Bros.: All markets started slow, but hariened perceptibly as the session advanced, with general buyin; for country account, There was nothing in the news of a character to influence speculation much either way, but an early rumor that the judiciary committee of the senate were expected to declare the Hatch bill unconstitutional, and this closed oats ke, wheat ke and corn ke higher for the day. The principal interest centered in corn, the leading feature of which was free selling on hard spots by the late buil combine. Shorts in provisions were stampeded by a well managed advance, during which the loags realized freely on a scale upward. The advances established were 150e in pork, 15c in lard and 20c in ribs. The market appears to us as being worked for a sunt where the least half constitutions. in ribs. The market appears to us as being worked for a spot where the local buil crowd can unload their holdings upon shorts and the

Londons, June 27.—[New York Herald Cable—Special to The Bee.]—New business has been almost at a standstill in the Stock exchange and but little has been done in connection with outstanding accounts in preparation for the settlement tomorrow. Consols are 1-16 to be per cent easier. Foreign government securities closed flat and feature ess with a fall of 15 per cent easier. Foreign government securities closed flat and feature ess with a fall of 15 per cent in Spanish on so ac, heavy seiling orders from Paris and Berlin. Argent ne issues have been rather freely offered, resulting in a decline of from \$\frac{1}{2}\$ to 1 per cent in government cedulas bonds. A moderate reduction is marked in Eryptians and Greek and most Turkish issues. Venezuela give way 2% per cent. Itahan is exceptionally better. Home ralls have been more or less duil from opening to close on the probability of reduced dividends. The stock is expected to be in better supply tomorrow. Northern leaves off at 15 per cent lower, being more especially offected by relection of the Hull dock bill. Great Eastern and Midland are \$\frac{1}{2}\$ per cent down and most others are \$\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent down and most others are \$\frac{1}{2}\$ to \$\frac{1}{2}\$ per cent lower. American raffways have been strong. The associated banks' statement was better than expected. Crop reports continue most encouraging, so that the \$\frac{1}{2}\$ are petting flighty. Money is fittle wanted, with no diminution in the supply of floating capital. Short loans were obtained at \$\frac{1}{2}\$ per cent. In the discount market bils have been scarce; those at two and three months are quoted at \$\frac{1}{2}\$ per cent. London Financial Review.

Leading Securities Failed to Develop Any

Features of Note, New York, June 27.—With nothing outside to stimulate, animation was dependent on the professionals, and the stock market remained duli and tame today, though it presented a trim front. Despite some London selling and further exports of gold, the trading, especially among the leading stocks, failed to develop any feature of note and the great lack of interest in the course of prices was, if anyof interest in the course of prices was, if anything, intensified today. London was credited with selling some of its favorites, but a more builish feeling on the grangers was reported from Chiergo and some buying of the grangers, which was attributed to that center, sufficed to give the Mat a firm temper, aided 1., 300 1 85

LIVE STOCK MARKET.

Week Opens With Fair Receipts, Steady Week Opens With Fair Reccipts, Stendy Prices and Active Demand.

OMAHA. June 27.—The week starts out with a very fair run of stock. There were 55 cars of cattle reported in and these included several loads of Texas cattle bought by Cudahy at Kansas City and consigned to him direct. The native cattle were only fair as to quality, but with an active inquiry both from local houses and shinping and export buyers the market was active and firm on all dry lot cattle, fair to very good 1,200 to 1,500-lb. steers going at from \$1.91 to \$4.31. Fair to good light and medium weight steers weighing from 1,000 to 1,250 lbs. sold at from \$3.6) to \$4.00. There was no improvement noticeable in prices realized for the general run of rough, haif fat and green grades. They were overlooked by buyers and sellers found it tough sledding to dispose of them at stendy prices. The general trade was quite brisk and a comparatively early clearance was effected. Butchers' stock and canners sold pretty much as on Saturday. There were only two or three loads of cows here. Poor to very good stock sold at from \$1.75 to \$3.05, largely at from \$2.00 to \$2.50. Calves were about steady, fair to tolerably good stock sold at from \$2.00 to \$2.50. Calves were about steady, fair to tolerably good stoff seiling at from \$2.00 to \$2.50. Calves were about steady, fair to tolerably good stoff seiling at from \$2.00 to \$2.50. Calves were about steady, fair to tolerably good stoff seiling at from \$2.00 to \$2.50. DeWitt's Sarsapareia cleanses the blood, increases the appetit and tones up the system. It has benefitted many people who have suffered from blood disorders. It will help you.

Recovered - sound health for every consumptive who hasn't delayed too long. There's a positive cure with Dr. Pierce's Golden Medical

Discovery. Just as it cures the worst of the many forms of scrofula, so it cures, and just as certain-ly, the scrofulous affection of the lungs that's called Consumption—through the blood.

Consumption—through the blood.

But, even with this remedy, it won't do to wait. It can't make new lungs, but it can make diseased ones healthy when nothing else will. As a blood cleanser, strength-restorer, and flesh-builder, there's nothing like it known to medical science. For Scrofula in all its forms, Bronchial Throat, and Lung affections, Weak Lungs, Asthma, Severe Coughs, and every disease that can be reached through the blood, it's the only remedy so unfailing that it can be guaranteed.

If it doesn't benefit or cure, in every case, you have your money back.

On these terms, it's an insult to your intelligence to have something else offered as

telligence to have something else offered as being "just as good."
